---

Make it easy for your employees to view, understand, and make decisions about location-based information. Share information quickly with colleagues and clients with Google Earth as a backdrop, leveraging Google's comprehensive mapping data. Reduce company software costs and save employee time with features designed specifically for business users.

### Google Earth Pro Product Summary

Give your employees an intuitive program for viewing location-specific information. Google Earth Pro offers the most comprehensive set of publicly-available geospatial data, including high resolution imagery, 3D cityscapes, detailed road maps, panoramic imagery at street level, historical imagery, and rich points of interest such as natural features, weather patterns, and business locations.

Google Earth Pro extends the power of Google Earth with additional capabilities designed specifically for business users. Print images in high resolution for use in your presentations, posters, and reports. Import geographic information system (GIS) data and create heat maps. Film custom tours using Google Earth Pro's Movie Maker feature, which allows you to show important location information to customers and co-workers without leaving the office.

### Key Features

- Transfer your view on screen to paper reports and large posters up to 11"x17" with **High Resolution Printing**.
- Take the guesswork out of analyzing the ground with Google Earth Pro **Measuring Tools** that measure area, radius, and length.
- Import spreadsheets of addresses and instantly see mapped points with **Batch Geocoding**.
- Incorporate and style geographic information system data easily with the **GIS Data Importer** for richly styled and thematic overlays.
- Create custom, compelling videos easily with the **Movie Maker** feature for use in marketing collateral and presentations.
- Get dedicated Google Earth Pro **Email Support** in addition to an online help center.

Import GIS data, such as ESRI Shapefile, and MapInfo TAB Files into Google Earth Pro and create thematic overlays. ©2009 TerraMetrics

## System Requirements

Google Earth Pro runs on Windows, Mac, and Linux operating systems. For more information about system memory, disk space, and graphics drivers requirements, please visit: [earth.google.com/support/go/systemreq](http://earth.google.com/support/go/systemreq)

## FAQs

**Can I try Google Earth Pro?** You can try out all the additional features of Google Earth Pro at no cost for seven days by visiting [earth.google.com/pro/trial](http://earth.google.com/pro/trial)

**How does the imagery in Google Earth Pro compare to Google Earth?** Google Earth Pro uses the same imagery as the free and Pro trial versions. However, Google Earth Pro lets you print these locations at high resolution (4800 vs. 1000 pixels).

**What support is available with Google Earth Pro?** Google Earth Pro users have access to an extensive online help center and to email support.

**Does Google offer discounts for larger orders of Google Earth Pro?** Yes, discounts are available for purchases of more than 10 licenses of Google Earth Pro. Please contact Google Earth Sales at 1-866-755-2582 (U.S.) or 1-650-253-6664 (international) for information.

**What are the licensing guidelines for Google Earth Pro?** Each license is good for one person per computer at a time. We offer site-wide licenses for customers with 100 or more users.

Incorporate street level imagery into your presentations
